

# Weather and Tourism

The following information gives details of the average temperature and monthly rainfall in the Alps.

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
°C	-2	0	4	9	14	16	28	17	14	9	3	-1
mm	49	39	46	58	78	105	126	114	81	59	55	53

Create a line graph of the average temperature using the scale on the left, and a bar chart of the rainfall data using the scale on the right. January has been completed for you.

Now, label your graph at the time of year when you think each of the following events might happen.

- Most hotels will be full.
- Ski instructors will have to find another job.
- Frau and Herr Gerber will rent their cabin out to walkers.
- Queues for the ski lift will be very long.
- Mountain rescue services will be very busy.
- Students will come from abroad to work in hotels.
- Rivers will flood and cause damage to properties.
- Local councils carry out repairs to the mountain footpaths caused by over-use.
