

Dear Marcus,

Hello brother, I hope you are well. I am enjoying being a Roman legionary and as I promised last time I wrote to you, I will tell you all about it. I am sure you will love it.

Firstly, do not worry about battles because you will learn how to fight. Each day you will receive training. We have lots of tactics like the Onb Formation and the Weolze Formation.

Secondly, you can earn money in two different ways: defeating

your enemies and then robbing their money and also by earning a good reliable wage.

Finally, you can travel the whole world, visit different countries and taste new food.

I hope that I have managed to persuade you that being a legionary is a great idea. I look forward to you joining me soon.

Your loving brother,
Antonius
