

FUTURE INTENTIONS

Moving forward....

At Holy Family we want to keep up with the times. Miss Hodson and Miss Hunter believe that you can make a difference to our school. Do you have what it takes to design something spectacular for the future at Holy Family. We have had a think of 3 different changes.

Can you help us?

Task 1.

Design a new school that used sustainable energy. Be as creative as you can be with your designs. Think back to previous sessions where we looked at a sustainable energy and why it is important.

Task 2.

Design a new lunch menu for the children and staff at Holy Family. Can we grow any of the ingredients in our beautiful garden?

Task 3.

Our nature trail needs an update. Can you design a new nature trail that we can use at school? Will there be specific places for animals, birds and insects?
