

There are 13 black counters.  
There are 7 red counters.  
Altogether there are 20 counters.

Spot and explain the mistake.

Jack has 20 counters in total. The number of red counters is **one more** than 13. The rest are black counters. Represent this below.

Number sentence: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Use all the counters below to complete the ten frame.

Number sentence: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Sue has 20 black and red counters altogether.

How many black counters does she have if the number of red counters is 5 more than 4?

Explain your answer.
