

Date: Friday 15th January 2020
Learning Ladybird asks...

Can you identify a source of light and something which reflects light?

Successful Spider says...
(Steps to success)

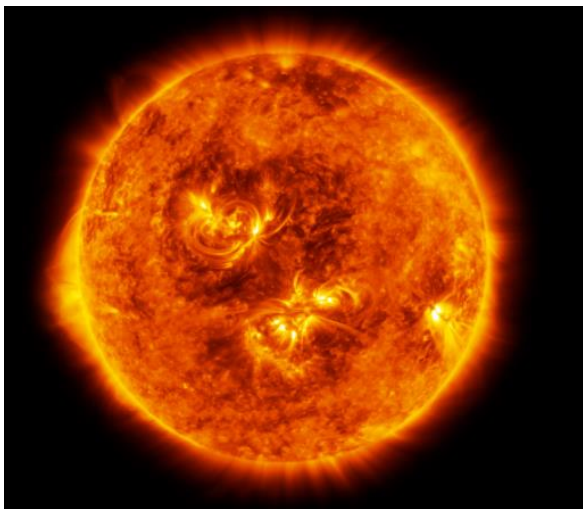

- I can say if the sun is a source of light or a reflector of light.
- I can say if the moon is a source of light or a reflector of light.

Challenge Caterpillar says:

- Can you think of other sources of light and another reflector of light?

Which of these is a source of light?

Which of these reflects light?

Can you think of three other sources of light?

Can you think of anything else that reflects light?
