

# The Leaning Tower of Pisa

It is an Italian Landmark

It 's in a city called Pisa

It's an Italian landmark

It is behind Pisa Cathedral.

It was built to be the bell tower of the Cathedral.

When they were building it, the 2<sup>nd</sup> floor started to sink into the ground.

It has been made safe and you can go up it, if you are over 8 years old.

I saw it in August 2019, these are my photos that we took.
