

15.10.18

Dear parents,

Would you like to come in and play some reading games with children? We have a fantastic resource in school called TRUGS – Teaching Reading Using Games. They have been used with great success in the past and the children thoroughly enjoy playing the games to enhance their reading skills. Volunteering to work with the children in the school is so rewarding and we feel that this is a new and exciting way for you to be able to do this. There are children across all year groups who would benefit from and enjoy using the games so you would be working with a variety of age groups, a brilliant way to experience the different ways that children learn. The games would be played for around 20 minutes per group and would take place in the afternoons. You can volunteer for as much time as you have, be it 20 minutes or an hour, every little helps! In order to volunteer in school you must have an up to date DBS check.

If you would like to volunteer to use these games with the children then please return the slip below to the office by Monday 29<sup>th</sup> October. I will be running a short training session which will show you how to play each game. We can then establish a rota or a regular slot for you depending on how many volunteers we have and your availability. Once I have an idea of how many parents will be attending then I will set a date for the training. In order to help me to choose a time that suits most parents, please tick an option for what would work best for you and return the slip to the office. Please note that if training occurs after school then child care will need to be arranged.

Kind regards,  
Sian Thornton

.....

I would like to volunteer to use TRUGs with the children.

Name \_\_\_\_\_

I would be able to volunteer regularly

I would prefer to volunteer as part of a rota

A 30 minute training session at 9am after drop off would suit me best

A 30 minute training session at 3pm would suit me best

I have an up to date DBS check

I will need a DBS check
